FOREWORD

REGIONAL DISTRICTS IN BRITISH COLUMBIA

The Province covers a very large area of some 948 000 square kilometres, being roughly 1 100 kilometres long by 800 kilometres wide. It is almost entirely within the Cordilleran Region and because of its mountainous nature less than 2 per cent is arable farm land. The major base resources are the vast softwood timber lands, minerals, oils, and natural gas, and some 32 000 000 kilowatts of potential water power — about one third of the national total. Because of the topography, people have settled mainly in numerous communities in the various valleys. Portions of these valleys have been established as municipalities and these comprise just over 1 per cent of the land area but contain 85 per cent of the population.

British Columbia's local government structure consists of several distinctive types of jurisdictions. In terms of spending, the most important jurisdictions include:

— municipalities (cities, districts, towns, villages); and
— school districts (some 75 in number).

School districts blanket the Province, whereas municipalities exist only in areas of concentrated settlement. Leaving aside regional districts, the local government structure also includes improvements districts and a number of special purpose districts such as water boards. Improvement districts provide usually a single service for rural communities, often water supply and distribution or fire protection.

Regional districts and regional hospital districts fill out the local government structure. The regional district and regional hospital district systems are twinned: there are 29 of each, and they each share a common board of directors. They are, however, distinct corporate entities. Together, the two systems cover all parts of the province except for the northwest corner bordering the Alaska panhandle. Regional districts (and regional hospital districts) are closely related to the system of municipalities in British Columbia. All municipalities are members of one of the 29 regional districts. Regional districts are, in effect, superimposed upon the municipalities and, in addition, cover the nonmunicipal areas of the Province. Both municipal and nonmunicipal areas are represented on the board of directors for each regional district.

Legislation was enacted in 1969 establishing the Municipal Finance Authority of British Columbia, the members of which are appointed by the Regional District Boards throughout the Province. The object of the Authority is to provide financing for the regional districts and their member municipalities by the issue of debentures or other evidence of indebtedness and lending the proceeds to those areas on whose request the financing is undertaken.

Turning specifically to regional districts, legislation was first introduced in 1965 which made it possible to provide a federated approach to local control over problems transcending municipal boundaries in either a metropolitan or non-metropolitan area. The structure was patterned after that historically employed in the case of single-purpose districts such as the Greater Vancouver Water District. However, the 1965 legislation introduced two basic innovations. First, a single regional district and its governing board could be responsible for more than one activity or service, and secondly, nonmunicipal areas could be represented on the board and participate in its activities and services as if they were municipalities.

Representation of the municipal councils on the board is by council prerogative, with the number of seats assigned to a council being determined by the regional district's Letters Patent. Electoral areas are represented usually by a single director directly elected by electoral area residents. Each municipal or electoral area director may carry one or more votes, with the number of votes held by each director being determined by Letters Patent. Some decisions of the board are made by a majority of votes while others are made by a majority of directors. Voting rules are governed by legislation.

All regional districts are involved in general services such as general administration and regional development services. In addition to general services, regional districts are most commonly associated with local services such as fire protection, recreation, street lighting, solid waste disposal and water supply, and with extended services such as nuisance and animal control.

It is important to note that the service powers of regional districts are for the most part optional. Each regional district has selected a unique set of responsibilities depending on the needs of the residents and the local government bodies within the region. The service powers of a regional district are set by provincial statute or, under new legislation introduced in 1989, by bylaw. Each service of a regional district has a separate and distinct boundary for regulation and cost recovery purposes. The area in which a service may be performed ranges from a portion of an electoral area to the entire region, with or without municipalities. Regional districts are an umbrella under which a varying collection of services are provided and financed, each within a separate boundary but all managed by a common board.

Regional districts obtain authority through provincial legislation. The most important source of authority for regional districts is the *Municipal Act*, most importantly Part 24 of that statute. Part 24 of the Act was originally introduced in 1965. In 1989, the original legislation was repealed and replaced by comprehensive new legislation detailing provisions and requirements concerning:

— corporate structure;
— government and procedure;
— powers and services;
— financial operations; and
— general matters.

The new legislation came into force in July 1989, and currently governs most matters connected with regional district operations. Regional hospital districts are governed under separate legislation, the *Regional Hospital District Act*.

Further information regarding the operation and activities of regional districts may be found in the annual report of the Ministry of Municipal Affairs, Recreation and Culture and in the annual report of financial and other statistics of municipalities, regional districts, and improvement districts in British Columbia.

Totals	595,010,081	1,319,483,760	1,055,168,285	1,119,354,055	236,432,679	4,325,448,860

FUNCTIONS AND SERVICES OF REGIONAL DISTRICTS

1. All regional districts are empowered by the *Municipal Act* to undertake the following functions:
   (*a*) Regional Development Services.
   (*b*) Management of Development Services.
   (*c*) Administration of Local Community Commissions.

2. In addition, all regional districts are empowered under the provisions of sections 787, 788, and 816.1 of the *Municipal Act* to provide:
   (*a*) local works and services to electoral areas;
   (*b*) contract works and services to municipalities and improvement districts;
   (*c*) grants-in-aid.

3. Additional functions undertaken are indicated under individual regional district.

FUNCTIONS ASSIGNED TO REGIONAL DISTRICTS FOR THE PERIOD APRIL 1, 1989 TO JULY 31, 1989

Capital

Victims Assistance Program Grants-in-Aid — Colwood, Victoria, Saanich, Oak Bay, Esquimalt, Metchosin, View Royal and Langford.

Cariboo

Civic Properties Commission — Electoral Area G.

Central Kootenay

Swimming Pool Grants-in-Aid — Salmo and Electoral Area G.
Museum Grant-in-Aid — Salmo and Electoral Area G.

Central Okanagan

Fire Protection — all electoral areas.

Columbia-Shuswap

House Numbering — all electoral areas.

Comox-Strathcona

Victims Assistance Program — Courtenay, Comox, Cumberland and Electoral Areas A, B and C.
Emergency Rescue Supplies Grants-in-Aid — Campbell River and Electoral Areas D, E, F, H, I and J.

Nanaimo

Regional Parks — all electoral areas.

Squamish-Lillooet

Rescue Service Grant-in-Aid — all electoral areas.
Transit — Electoral Areas B, C, D, E and F.

NOTE: Legislative changes provide that after July 31, 1989 service powers of a regional district are set by bylaw rather than by function.

Functions that have been converted to either local or extended services by bylaw during this period are listed under the section "Functions and Services Provided" on the individual regional district pages. New extended or local services set by bylaw are not listed this year and former Specified Area services that have been converted under the legislation to local services are also not listed.
